Essays in Honor of Raul P. de Guzman

edited by Ledivina V. Cariño

Features papers on carefully selected topics prepared for the year-long lecture series (February 1994 - February 1995) held in honor of Raul P. de Guzman, a distinguished public administrationist who has consistently striven to put his profound thoughts in practice and in print.

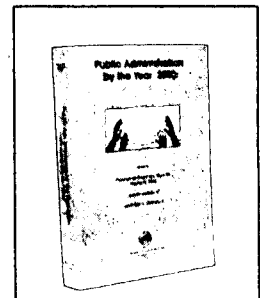

This *Festschrift* is more than a tribute to RPG: the administrator, his ideas and contributions to the field of public administration in the Philippines and in Asia. The compendium tackles decentralization and regional development, development administration, efficiency and productivity, power and social responsibility, nongovernmental organizations, university governance, international/comparative public administration and politics and democracy.
